Addendum Includes:
1. AE clarifications and changes to the bid documents.
2. Product Substitution Requests
3. Response to Bidder Questions

ADDENDUM NO. 5

General: This document is an addendum, which modifies the requirements of the bid documents for the items indicated. Bidders shall review the addendum and incorporate the modified requirements into their proposals.

Information in this addendum supersedes information previously provided in the bidding requirements with respect to the items indicated. Bidders shall coordinate addendum items with related work to insure that the addendum results in a complete project, with the modified requirements completely and fully integrated into the project.

GENERAL CLARIFICATIONS

Item No. CL-01
The flat-panel displays indicated in the TA drawings and identified on sheet TA601 in the Audiovisual Display Schedule has been removed from the GC project scope. Infrastructure, boxes, and blocking for mounting should be provided and coordinated with owner and architect as part of the project, however the actual displays will be provided by the owner.

CLARIFICATION AND CHANGES TO THE PROJECT MANUAL

Item PM-01 Section 00 41 13
Delete Existing Section and Replace with Revised Section included in this addendum.

CHANGES TO THE DRAWINGS

Item No. DW-01 Sheet A201
Delete and Replace with the included sheet.

Item No. DW-02 Sheet A543
Modify as follows: In Detail 4, Roof Detail – Equipment Screen Wall, the 'Metal Panel' note should be modified from 'Metal Panel' to 'Flush-Profile, Concealed Fastener Metal Wall Panel'. The note 'Metal Trim Cap' should be modified to '.040 Metal Trim Cap to match adjacent wall panel'.

Item No. DW-01 Sheet A545
Delete and Replace with the included sheet.
Item No. DW-03   Sheet A700
Modify as follows: In Room 129 Toilet revise South Wall from “PNT-1” to “CT-1” and revise West Wall from “CT-1” to “PNT-1”.

Item No. DW-04   Sheet A751
Modify as follows: In Detail 7, the ‘P-LAM Skirt Edge’ note should be modified from ‘P-LAM...’ to ‘Solid Surface...’.

Item No. DW-05   Sheet E011
Modify as follows: Revise Key Note #5 to the following: “Provide dedicated 30A, 208V, 3Φ circuit to new grinder/pump station. Use 3#8, #10G in 1”C. Fuses shall be sized per the recommendations of the pump manufacturer.”

Item No. DW-06   Sheet E201
Delete and Replace with the included sheet.

Item No. DW-07   Sheet E602
Delete and Replace with the included sheet.

Item No. DW-08   Sheet E701
Delete and Replace with the included sheet.

Item No. DW-09   Sheet TA601
Modify as follows: Delete the ‘Audiovisual Display Schedule’.

PRODUCT SUBSTITUTION REQUESTS
Item No. SU-01 096723
Request: Sika – Sika 264 Epoxy
Response: Not Approved

CLARIFICATIONS
1. Sheet A212 Detail 7 and Sheet A215 Detail 8 – Tag 28 calls for “wood wall panel stained” – Please provide specifications for this system
   Response: At these locations, Tag 28 is incorrect and should be changed to ‘Fiber Cement Slat to match ceiling’.

2. Specification Sections 101423.13 Room-Identification Signage- Not able to find a door sign schedule on plans. Please advise.
   Response: Please see attached for signage schedule and types.

3. Sheet S302 – the majority of the roof deck details contain an additional hatch that is sometimes used for concrete or gypcrete. What does this hatch represent?
   Response: There is no concrete or gypcrete on the roof. The hatch can be disregarded.
4. Specification Manual Section 033543 – Polished Concrete Finishing - Please confirm that this section can be deleted.
   Response: This section is used and is not to be deleted. SC-1 is polished concrete.

5. Specification Manual Section 042000 – Unit Masonry - Please confirm that this section can be deleted.
   Response: This is not used and can be deleted.

6. Specification Manual Section 115213 Projection Screens – Please confirm that this section can be deleted.
   Response: This is not used and can be deleted. Information on the projection screens is included in the A/V specs.

   Response: SS-1 is solid surface and SS-2 is quartz agglomerate.

8. Where is this horizontal metal trim located? It does not show up on the elevations.
   Response: This detail has been indicated on revised sheet A201. These are typical for A202 as well.

9. Sheet A545 – Bio-retention art installation- please provide additional specification for this art installation. I am assuming that specification section 10 14 19 Dimensional Letter Signage is not the correct specification for this piece of art.
   Response: See revised sheet A545 with additional information. The letters are intended to be custom fabricated and constructed out of aluminum plate.

10. Page A700 (Addendum 2) shows new ceiling type: WC-1. There is no description for ceiling type WC-1. Please advise.
    Response: WC-1 refers to the slatted fiber cement ceiling as indicated on the reflected ceiling plans A111 and A112.

11. Further clarification required for this previously issued item- See Addendum #1 item #6 of clarifications “On drawing A201, wall type AW300 at the rooftop screen enclosures should be deleted.” Please confirm that this is correct and there is no need to refer to a revised detail of the screen provided in the addendum.
    Response: The rooftop screen enclosure is still part of the project, however rather than calling it a wall type with a typical assembly detail, the construction of the screen is called out in detail 4/A543.
12. Toilet accessory questions:
   a. The drawings show hand dryers, they are not in the specs.
   b. The drawings show Baby Changing Stations, there are none in the specs.
   c. The drawings show wall mount soap dispensers, none in the specs.
   d. The drawings show PTD/Trash combo units, these are in the ALT toilets] no information in the specs. (The specs do show a semi recessed trash can in the bathrooms with the hand dryers).
   e. Are there items that are OFCI??

Response: Below is a list of basis of design and additional clarifications for the above referenced items. Paper Towel, Toilet Paper, and Soap Dispensers will be Owner Provided and Owner Installed and are not to be included in the GC’s scope of work.
   a. Basis of design for the hand dryers is surface mounted Excel XLERATOReco
   c. The Wall Mounted Soap Dispensers will be provided and installed by the owner and are not to be included in the GC’s scope of work.
   d. The PTD/Trash Combo Units should be changed to Semi-Recessed Waste Receptacles. Basis of Design is Bradley Corporation Model 346-10. Paper Towel Dispensers will be provided and installed by the owner and are not to be included in the GC’s scope of work.
   e. There are no items that will be Owner Furnished / Contractor Installed.

13. Per sheet A700, the new finish schedule released in addendum #2 states the bathroom walls are to paint. The bathroom elevations indicate wall tile at some locations. Please confirm that the wall tile (Sheets A440 and A441) has not be excluded by the new finish schedule.

Response: In Room 129 Toilet revise South Wall from “PNT-1” to “CT-1” and revise West Wall from “CT-1” to “PNT-1”. In rooms 120 and 147, CT should be provided on ‘wet’ walls. Depending on the alternate, these walls may be different orientations.

14. Which alternate is the 8’-0” wood fence a part of – Alternate 6A, 6B, or 6C?

Response: The areas of Alternates 6A and 6B are shown on L161. The section of wood fence within the Alternate 6A area shall be included in 6A and the section of wood fence within the Alternate 6B area shall be included in 6B. Note there is a divider line separating Alternate 6A and 6B near the area where the proposed driveway ties into existing.

15. Please specify the decorative gravel.

Response: Decorative gravel is specified in Specification 329300 “Plants” Section 2.7. NCDOT #9 is specified, however, the #12 equivalent of #9 stone will be acceptable provided it has a maximum size in any direction of 1/4”.
16. The below listed rooms currently do not show any FA devices in them, should the FA device noted beside the room in question be included as part of the FA system?

- Meeting Room 122- Strobe Only
- Sorting 136 & Friends 137- Strobe Only
- Teen 127 Entrance/Exit Door- Pull Station
- Storage Closet 105A- Smoke detector
- Cater 113A- Strobe Only
- Study Rooms: 123, 124, 125- Strobe Only

Response: See revised drawing E201 included with this addendum.

17. Is the submersible grinder pump station to be per CFPUA specifications or will it be owned by the library? PSI has done projects in Wilmington as both private and to CFPUA specifications.

Response: The pump station will be private. New Hanover County will own and operate.

18. The panel schedule E601 shows that the panel will have 30 AMP208V/3 Phase power to the pump station. Drawing E011, note 5 states that there will be 30 AMP, 208V/1 Phase power to the station. Preferred Sources would recommend 3 phase power to any grinder pump station when possible.

Response: Key Note #5 on Sheet E011 should be revised to the following: “Provide dedicated 30A, 208V, 3Φ circuit to new grinder/pump station. Use 3#8, #10G in 1”C. Fuses shall be sized per the recommendations of the pump manufacturer.”

19. The structural steel framing specification 05 12 00 called for a AISC certified fabrication shop and certified erector. Is this a requirement that could be waived? There are only a few AISC fabrication shops and erectors in the area.

Response: The requirements of an AISC certified fabricator and erector can be waived for the project.

20. Further clarification required for this previously issued item- Please provide delineation and specifications for the foundation drain system. See Addendum #1 “Foundation Drains should be provided at the perimeter of the building, as shown on details 2/A541 and 7/A542 [among others]. Provide 8” HDPE perforated pipe as outlined in the project manual Section 33 46 00” Where does this 8” HDPE drain system discharge (daylight)? If no answer is provided, should I assume that the system does not discharge?

Response: The foundation drains should drain to daylight at YI #8 and at the Bio-Retention Pond on the East Side of the building.
21. Further clarification required for this previously issued item- Not able to locate plans for underground roof drain piping. Please advise. See Addendum #1 for Answer - “Underground roof drain piping should be assumed to connect into the underground stormwater piping”. Need delineation and material types and sizes.  
   **Response:** Refer to section 33 46 00 in the project manual. Roof Drains on the north and southwest side of the building should connect into the inlets. Roof Drains on the southeast side of the building should be routed below ground and discharge in the Bio-Retention area on the east side of the building.

22. Please see Detail 6 on Revised Sheet A545-  [1] fencing sub is concerned that the height of the fence may not meet COW standards; [2] detail refers to the structural drawings for steel gages, footing sizes, post spacing, etc. no information is contained on the structural plans; [3] will this fence system be painted and if so please provide specifications.  
   **Response:** See below for responses regarding revised detail 6 on A545
   1. The screen wall is designed to shield roll-away carts rather than a true ‘dumpster’ and should provide adequate shielding. 
   2. Revised structural drawings addressing this screen wall were included as part of Addendum 1. 
   3. All structural steel is to be painted. The ‘Wide Reveal Joint Formed Metal Wall Panel’ is prefinished as outlined in Section 074213.13

23. Please see Detail D4 on Sheet L502 – Western red cedar is extremely rare and expensive in this geographic location. Please confirm that this is the correct material for this fence.  
   **Response:** Western Red Cedar, Atlantic White Cedar, or Cypress, in the same grade as listed in the details and project manual will be acceptable materials for the fence.

24. On sheet A101, between columns 1 & 2 and at column E., room label 9th Space @ room number 112. It shows a storefront with a pair of doors. On sheet A601 the door schedule, it does not show on the door schedule. Are these doors going to be wood or aluminum?  
   **Response:** These doors are to be Wood, Type FG – Full Glass

25. What type of hardware is going to be used for door 112?  
   **Response:** The hardware set is 26.0.

26. The hardware specification 08700, calls for this section to install ALL the hardware on ALL doors. Do you want to have the aluminum door to have preps for the hinges only? It is highly recommended that the storefront vendor install their hardware regardless of who supplies the hardware. It would be very unusual for another party to install the storefront hardware.  
   **Response:** Hardware for storefront and curtainwall openings can be installed by the storefront and curtainwall vendor.

27. The finish for the storefront and Curtain wall are called out for a 3-coat painted finish. Would you want to change it a 2-coat finish that will be the same as the panels?  
   **Response:** A 2-coat finish is acceptable provided it can meet all other performance and criteria outlined in the specification section.
28. On sheet A543, detail 6, 7 & 8 shows a break metal shape to match the panel. Is this for the metal panel installers to install?
   
   **Response:** The trim indicated on Details 6 + 7 should be provided and installed by the metal panel provider. The trim indicated in detail 8, as well as other break metal trim attached to the storefront and/or curtainwall, should be provided and installed by the curtainwall/storefront provider.

29. In the men’s and women’s bathrooms, are the mirrors frameless or do they have a trim?
   
   **Response:** The mirrors are to be frameless.

30. On sheet A215, interior storefronts, elevations 2, 3, 4, 5 & 6, for the children’s reading rooms are not located on the floor plan drawing. Can you tell us what door numbers and their location on the Floor plan?

   **Response:** These drawings and door numbers are referenced on sheet A102 as part of Alternate 1 + 2.

31. See the following Storefront RFI:
   
   **Section 08 44 13 – Glazed Aluminum Curtain Wall**
   
   **2.1**
   
   **C.**
   
   1. Wind loads: As indicated on drawings

   **Section 08 80 00 – Glazing**
   
   **2.1**
   
   **B.**
   
   1. Design Wind Pressures: As indicated on drawings

Per sheet S000 the codes and wind load require this project to be Hurricane Impact. However, according to local building legislation the current location does not have to be Hurricane Impact Rated. Can you please clarify which direction you would like us to price this so that we stay competitive?

**Response:** Hurricane Impact Rating is not required.

32. Note 5 under the Rooftop Unit schedule on M601 states, "Provide factory-fabricated solid bottom acoustical roof curb". What is the sound criteria we are expected to meet?

   **Response:** Curbs shall have a minimum 20 Ga galvanized steel insulated floor with 1-12/ inches of 3 lb density anti-microbial insulation, minimum 18 Ga galvanized steel curb walls, and insulated pan beneath the compressor condenser section.
33. Note 7 under the Rooftop Unit schedule on M601 states, “RTU shall have seacoast construction entire unit exposed to elements”. Spec section 236213 para2.3.B. states 500 hour salt-spray test on cabinet and section 236213 para2.5.D. states 5,000 hour salt-spray test on condenser coil. Is the requirement to only meet what is stated in the spec sections or is the entire unit to be coated? If the entire unit is to be coated, what is the specification requirement for that coating?

Response: See below for clarification regarding the requirements.

Standard Roof Top Units Section 236213 – Unit cabinets shall have a coating that provides a minimum of 500 hours consecutive salt-spray test per ASTM B117. A standard factory finish that achieves this rating is acceptable. Condenser coils shall be factory coated for a minimum of 5,000 hours consecutive salt-spray test per ASTM B117.

Dedicated Outside Air Units Section 237433 - Unit cabinets shall have a coating that provides a minimum of 500 hours consecutive salt-spray test per ASTM B117. A standard factory finish that achieves this rating is acceptable. Heating, cooling coils, and condenser coils shall have a phenolic epoxy corrosion-protection coating after assembly.

34. Should the following rooms have the associated fire alarm system type devices added to them as nothing is currently shown in those rooms:

- Meeting Room 122- Strobe Only
- Sorting 136 & Friends 137- Strobe Only
- Teen 127 Entrance/Exit Door- Pull Station
- Storage Closet 105A- Smoke detector
- Cater 113A- Strobe Only
- Study Rooms: 123, 124, 125- Strobe Only

Response: See revised drawing E201 included with this addendum.

35. Not really an RFI but wanted to point out that, I do not see anything on the plans regarding a vendor to provide security equipment only that the EC is to provide boxes and stub ups. Please advise if this is the case.

Response: Security Cameras and library security gates will be provided and installed by the owner.

36. Can you tell me the dimensions of the side folding door?  I can't scale that height

Response: The folding panel partitions between Reading 117, Large Program B 113, and Large Program A 114 go to the ceiling which is at 10’-0”.

37. RFI: will the outside overhangs require fire sprinkler protection? They are non-combustible.

Response: The exterior overhangs do not require fire protection per NFPA 13 Section 8.15.7.2 which states. “8.15.7.2: Sprinkler shall be permitted to be omitted where the exterior projections are constructed with materials that are noncombustible, limited-combustible, or fire retardant-treated wood as defined by NFPA 703.”
38. Can you specify the difference between SC-1 and SC-2 on room Finish Schedule.
   Response: SC-1 is polished concrete and SC-2 is sealed concrete.

39. Regarding the bid RFB # 18-0090, I have a question:

   Audiovisual System
   Section 267413 page 14
   Chapter 2.5 Projection Screen
   There is no any screen size specified in this document neither in the associated drawing. Do you have any specific size for the projection screens or should we suggest it?
   Response: Refer to the drawing ‘Audiovisual Schedules’ and reference the projection schedule. Both projector and screen information is listed.

40. Please provide locations of the roller shades. Will they be at all exterior windows or only certain rooms? Also, it the top treatment fascia or surface pocket and is it full sill and side channels for all shades?
   Response: The roller shades are indicated on revised drawing sheet A701 included with this addendum. They will be surface mounted within the window opening (not mounted to the window frame). An enclosure fascia concealing the front and bottom of roller is to be provided, however sill and side channels are not required.

41. There is no finish schedule. Please provide.
   Response: This was provided in Addendum 2.

42. Refer to Sheet A211, Note 18. Please confirm that the projection screens are by others and to be excluded from our contract.
   Response: Sheet A211 Note 18 Display Monitor, N.I.C., are not included in the project and will be provided and installed by the owner. Projection Screens are to be included in the scope and provided and installed by the GC.

43. There is no wall partition schedule. Please provide.
   Response: Partition types are identified on sheet A020 and A030 and indicated on sheets A101 and A102.

44. Will the project require a ‘Knox Box’? Not able to find a callout in the bid documents. Please confirm that one will not be required.
   Response: A ‘Knox Box’ will be required for the project.
In a previous RFI I inquired “Sheet A212 Detail 7 and Sheet A215 Detail 8 – Tag 28 calls for “wood wall panel stained” – Please provide specifications”. I am assuming that the Specification may be contained in Section 062023 – Interior Finish Carpentry item 2.4 A is for this wood panel, but no thickness or profile is provided on the plans. Please confirm that all of the remaining trim covered under Specification Section 062023 will not be required on this project.

Response: At these locations, Tag 28 is incorrect and should be changed to ‘Fiber Cement Slat to match ceiling’. The additional trims identified in the referenced section are not required.

Will the wood (cedar) privacy fence be a part of alternate 6A, 6B, or 6C?

Response: The areas of Alternates 6A and 6B are shown on L161. The section of wood fence within the Alternate 6A area shall be included in 6A and the section of wood fence within the Alternate 6B area shall be included in 6B. Note there is a divider line separating Alternate 6A and 6B near the area where the proposed driveway ties into existing.

FORM OF PROPOSAL

NHC Pine Valley Branch Library  
Contract: 18-0090
New Hanover County  
Bidder: 
Date:

The undersigned, as bidder, hereby declares that the only person or persons interested in this proposal as principal or principals is or are named herein and that no other person than herein mentioned has any interest in this proposal or in the contract to be entered into; that this proposal is made without connection with any other person, company or parties making a bid or proposal; and that it is in all respects fair and in good faith without collusion or fraud. The bidder further declares that he has examined the site of the work and the contract documents relative thereto, and has read all special provisions furnished prior to the opening of bids; that he has satisfied himself relative to the work to be performed. The bidder further declares that he and his subcontractors have fully complied with NCGS 64, Article 2 in regards to E-Verification as required by Section 2.(c) of Session Law 2013-418, codified as N.C. Gen. Stat. § 143-129(j).

The Bidder proposes and agrees if this proposal is accepted to contract with the COUNTY OF NEW HANOVER in the form of contract specified below, to furnish all necessary materials, equipment, machinery, tools, apparatus, means of transportation and labor necessary to complete the construction of the NEW PINE VALLEY BRANCH LIBRARY and all associated work in full in complete accordance with the plans, specifications and contract documents, to the full and entire satisfaction of the COUNTY OF NEW HANOVER, NEW HANOVER COUNTY PUBLIC LIBRARY and VINES ARCHITECTURE with a definite understanding that no money will be allowed for extra work except as set forth in the General Conditions and the contract documents, for the sum of:

In submitting this Bid, BIDDER represents, as more fully set forth in the Agreement, that:

a) This Bid will remain subject to acceptance for ninety (90) days after the day of Bid opening;

b) The Owner has the right to reject this bid;

c) Accompanying this proposal is a certified check (or bid bond) for $_____________, which represents not less than five (5) percent of the aggregate amount of the proposal. Said check, or the full amount of the bond, shall become the property of New Hanover County and be retained by the County in the event of withdrawal of the bid after the public opening or should the undersigned fail to execute a contract with the County and give satisfactory surety within fifteen (15) days after the award. Otherwise, said check or bid bond, to be returned to the undersigned. The undersigned agree, if awarded the contract, to deliver satisfactory surety bond in the amount equal to not less than 100 per cent of the contract within fifteen (15) days after Notice of Award;
d) BIDDER will sign and submit the Agreement with the Bonds and other documents within 15 days after the date of the Owner’s Notice of Award;

e) BIDDER has examined copies of all the Bidding Documents.

f) BIDDER has visited the site and become familiar with the general and local site conditions;

g) BIDDER is familiar with federal, state, and local laws and regulations;

h) BIDDER certifies that no federal excise or state sales taxes have been included in this bid;

i) BIDDER has correlated the information known to BIDDER, information and observations obtained from visits to the site, reports and drawings identified in the Bidding Documents and additional examinations, investigations, tests, studies and data with the Bidding Documents;

j) BIDDER certifies that this proposal is made in good faith and without collusion or connection with any other person bidding on the same work, or that any official or employee of the County of New Hanover will be admitted to any share or part of the contract or any benefits that may arise therefrom if the contract is awarded to this company;

k) BIDDER agrees that the Work will be substantially complete and ready for final payment in accordance with the General Conditions on or before the dates or within the number of calendar days indicated in the Agreement.

l) The following documents are attached to and made a condition of the Bid:
   a) Required Bid security in the form of ________________________________
   b) New Hanover County M/WBE Program Forms __________________________

m) BIDDER acknowledges the provisions in the General Conditions for Liquidated Damages of $500.00 per calendar day.

Contract completion time for all work on this project is 395 calendar days or 30 days from substantial completion, which is ever first. Bidders shall note the 395 calendar day time limit for the substantial completion of such work as may be contracted for as follows: New Hanover County Public Library – Pine Valley Branch located at 3201 South College Road, near the intersection of South College Road and 17th Street in Wilmington, NC.

ADDENDA:

BIDDER acknowledges receipt of the following Addenda, which have been considered in the preparation of this Bid:

Addendum No. 1 __________ Addendum No. 3 __________ Addendum No. 5 __________
Addendum No. 2 __________ Addendum No. 4 __________ Addendum No. 6 __________
Addendum No. 7 __________ Addendum No. 8 __________
SINGLE PRIME CONTRACT:

Lump Sum price for the entire work, complete, in accordance with the drawings, project manual, and all addenda:

Base Bid: _______________________________________________ Dollars($)

General Subcontractor: ___________________________ Lic____

Plumbing Subcontractor: ___________________________ Lic____

Mechanical Subcontractor: ___________________________ Lic____

Electrical Subcontractor: ___________________________ Lic____

GS143-128(d) requires all single prime bidders to identify their subcontractors for the above subdivisions of work. A contractor whose bid is accepted shall not substitute any person as subcontractor in the place of the subcontractor listed in the original bid, except (i) if the listed subcontractor's bid is later determined by the contractor to be non-responsible or non-responsive or the listed subcontractor refuses to enter into a contract for the complete performance of the bid work, or (ii) with the approval of the awarding authority for good cause shown by the contract.

ALTERNATES:

Should any of the alternates as described in the contract documents be accepted, the amount written below shall be the amount to be "added to" or "deducted from" the base bid. (Strike out "Add" or "Deduct" as appropriate.):

GENERAL CONTRACT:

Alternate No. 1: Add an additional 1,770 square footage and associated systems to base building as indicated on the drawings and specified in the project manual.

(Add) (Deduct) ________________________________________ Dollars($)

Alternate No. 2: Add an additional 3,328 square footage and associated systems to base building as indicated on the drawings and specified in the project manual.

(Add) (Deduct) ________________________________________ Dollars($)

Alternate No. 3: Add aluminum storefront enclosures to Study Rooms 123, 124, and 125 as indicated on the drawings and specified in the project manual.

(Add) (Deduct) ________________________________________ Dollars($)
Alternate No. 4: Add manual roller shades as indicated on the drawings and specified in the project manual.

Add (Deduct) ____________________________ Dollars($)

Alternate No. 5: Add pavers at entry and public plazas as indicated on the drawings and specified in the project manual.

Add (Deduct) ____________________________ Dollars($)

Alternate No. 6A: Add additional buffer plantings as indicated on the drawings and specified in the project manual.

Add (Deduct) ____________________________ Dollars($)

Alternate No. 6B: Add additional buffer plantings as indicated on the drawings and specified in the project manual.

Add (Deduct) ____________________________ Dollars($)

Alternate No. 6C: Add additional buffer plantings as indicated on the drawings and specified in the project manual.

Add (Deduct) ____________________________ Dollars($)

UNIT PRICES:

UNIT PRICES quoted and accepted shall apply throughout the life of the contract, except as otherwise specifically noted. Unit prices shall be applied, as appropriate, to compute the total value of changes in the base bid quantity of the work all in accordance with the contract documents.

GENERAL CONTRACT:

Unit Price No. 1 – Undercutting of Soft or Highly Plastic Soils and Disposal Off-Site

(Per Cubic Yard) Unit Price ($)______________

Unit Price No. 2 – Suitable Soil Replacement from an Off-Site Source to be used to Replace Removed Unsuitable Soils

(Per Cubic Yard) Unit Price ($)______________

Unit Price No. 3 – ABC Stone Replacement from an Off-Site Source to be used to Replace Removed Unsuitable Soils

(Per Cubic Yard) Unit Price ($)______________
Unit Price No. 4 – #57 Stone Replacement from an Off-Site Source to be used to Replace Removed Unsuitable Soils

(Per Cubic Yard) Unit Price ($)______________

Unit Price No. 5 – Trench Rock Excavation

(Per Cubic Yard) Unit Price ($)______________

Unit Price No. 6 – Mass Rock Excavation

(Per Cubic Yard) Unit Price ($)______________

The bidder further proposes and agrees hereby to commence work under this contract on a date to be specified in a written order of the designer and shall fully complete all work thereunder within the time specified in the Supplementary General Conditions Article 23. Applicable liquidated damages amount is also stated in the Supplementary General Conditions Article 23.
MINORITY BUSINESS PARTICIPATION REQUIREMENTS:

*Provide with the bid* - Under GS 143-128.2(c) the undersigned bidder shall identify on its bid (Identification of Minority Business Participation Form) the minority businesses that it will use on the project with the total dollar value of the bids that will be performed by the minority businesses. Also list the good faith efforts (Affidavit A) made to solicit minority participation in the bid effort.

NOTE: A contractor that performs all of the work with its own workforce may submit an Affidavit (B) to that effect in lieu of Affidavit (A) required above. The MB Participation Form must still be submitted even if there is zero participation.

*After the bid opening* - The Owner will consider all bids and alternates and determine the lowest responsible, responsive bidder. Upon notification of being the apparent low bidder, the bidder shall then file within 72 hours of the notification of being the apparent lowest bidder, the following:

An Affidavit (C) that includes a description of the portion of work to be executed by minority businesses, expressed as a percentage of the total contract price, which is equal to or more than the 10% goal established. This affidavit shall give rise to the presumption that the bidder has made the required good faith effort and Affidavit D is not necessary;

* OR *

If less than the 10% goal, Affidavit (D) of its good faith effort to meet the goal shall be provided. The document must include evidence of all good faith efforts that were implemented, including any advertisements, solicitations and other specific actions demonstrating recruitment and selection of minority businesses for participation in the contract.

Note: Bidders must always submit with their bid the Identification of Minority Business Participation Form listing all MB contractors, vendors and suppliers that will be used. If there is no MB participation, then enter none or zero on the form. Affidavit A or Affidavit B, as applicable, also must be submitted with the bid. Failure to file a required affidavit or documentation with the bid or after being notified apparent low bidder is grounds for rejection of the bid.

Proposal Signature Page

The undersigned further agrees that in the case of failure on his part to execute the said contract and the bonds within ten (10) consecutive calendar days after being given written notice of the award of contract, the certified check, cash or bid bond accompanying this bid shall be paid into the funds of the owner's account set aside for the project, as liquidated damages for such failure; otherwise the certified check, cash or bid bond accompanying this proposal shall be returned to the undersigned.
Respectfully submitted this day of ________________________________
