### 3.1 GENERAL INFORMATION

New Hanover County is requesting bids from qualified Contractors to sell and deliver topsoil and/or sand, as well as ABC rock, to the County’s landfill located at 5210 HWY. 421 N, Wilmington, NC.

The landfill has a limited soil reserve and must import off-site topsoil for use as intermediate cover. The landfill may also; as needed, import sand from off-site for use as daily cover. Additionally, the landfill also imports ABC rock from local suppliers for roadway repairs and extensions. The successful Bidder will be required to secure, load and deliver a sufficient quantity of topsoil, sand, or ABC rock as directed by County staff on a daily basis for use as intermediate/daily cover or road repairs and extensions. The County does not commit to purchase a minimum quantity of topsoil, sand, or ABC rock. All topsoil, sand, and ABC rock delivered to the County landfill must meet the specifications identified in “Cover Material Specifications” identified in item 3.2 below.

The Contractor shall list all available sources of topsoil, sand and rock and provide both hauling and material charges on the bid form for each site identified. The Contractor shall determine the availability of topsoil and sand at the different collection sites prior to delivery. County staff will use this information to determine which site to haul from during any event.

The Contractor shall list the price/hour to haul materials, such as ground yard waste, within the landfill site.

The County will verify all quantities delivered based on random weights of the soil or sand as measured across certified scales at the landfill or other mutually agreed upon method. The following conversion factors will be used to quantify the cubic yards of soil delivered:

- Sand: 1.4 tons/cubic yard
- Topsoil: 1.1 tons/cubic yard

### 3.2 COVER MATERIAL SPECIFICATIONS

As directed by the County, the Contractor shall provide daily cover, intermediate cover, and roadway repair materials meeting the following specifications:

- For daily cover: coarse to fine grained sands, sandy loam (to be visually observed by and then authorized by County staff prior to hauling)
For intermediate cover: topsoil or topsoil equivalent (to be visually observed by and then authorized by County staff prior to hauling)

For roadway repair and extension: ABC rock purchased from a local supplier (currently Martin Marietta).

All soil delivered shall conform to applicable County and State of North Carolina codes. Unsuitable material shall not be accepted by the County and shall be removed from the site at no cost to the County. Unsuitable material is defined as material the County determines to be one of the following:

1. Of such unstable nature as to be incapable of being compacted using ordinary methods
2. Too wet to be properly compacted
3. Include clay at a percentage determined by visual observation to negatively impact operations
3. Otherwise unsuitable for the planned use as daily or intermediate cover material.

3.3 TOPSOIL AND SAND SOURCES

The Contractor is responsible to identify the location of all available sources of topsoil/sand and provide both hauling and material pricing from each site on the bid form attached. The Contractor shall complete a separate bid form for each source identified, being certain to identify the source in the space available on the form. The Contractor is responsible for making additional copies of the bid form for multiple sources identified.

3.4 QUANTITY AND FREQUENCY

Quantities to be delivered will vary on a daily, weekly and monthly basis. The Contractor shall be prepared to deliver no material per day or as much as 900 cubic yards/day, five days/week.

3.4.1 Topsoil

County staff anticipates topsoil purchases periodically at approximately one month intervals. Each event in which topsoil is needed may last for several consecutive days. For example, the landfill may need 600 cubic yards of topsoil to be delivered each day for four consecutive days and then not need any more for about a month. The successful bidder shall be capable of providing topsoil at this rate for the duration of such events.

3.4.2 Sand

County staff anticipates sand purchases on an as needed basis, most likely only in the event of equipment breakdown that prevents hauling of on-site soils by County staff. In the case of equipment breakdown County staff projects the need for approximately 300 cubic yards of sand/day, five days/week. The successful bidder shall be capable of providing sand at this rate for the duration of such events.
3.4.3 ABC Rock

County staff purchases ABC rock for roadway repair and extension on an as needed basis. The successful bidder shall be capable of providing transportation of ABC rock to the landfill as needed in quantities up to 500 tons/day.

3.5 TOPSOIL AVAILABILITY

At a minimum, the Contractor shall ensure the availability of 30,000 cubic yards of intermediate cover (topsoil) per year from the combination of sources listed on the bid form. This will ensure that material is readily available when needed.

3.6 MEASUREMENT AND PAYMENT

(A) Measurement of topsoil and sand will be conducted randomly across certified scales located at the landfill and converted to cubic yards based on the conversion factors listed in 3.1 above. On average, each load of topsoil or sand should contain a volume of approximately 15 cubic yards.

(B) Payment for the various items in the proposal will be made at the unit price bid in the proposal and shall be compensation in full for furnishing all materials, labor, tools, equipment, and appurtenances necessary to complete the work in a satisfactory manner and as required in the specifications.

(C) Total quantities indicated in the proposal are approximate and for bidding purposes only.

3.7 UNIT PRICE BID

Bidders shall provide unit prices for topsoil and sand in $/load. This price shall be based on a load of approximately 15 cubic yards. Bidders shall provide unit prices for the transportation of ABC rock in $/ton. Additionally, for the sand site located on U.S. Highway 421 N. in Wilmington, the price should be shown in $/ton, due to scale availability at that location.

3.8 FUEL SURCHARGE

There will be no fuel surcharge allowed during the contract period. Prices quoted shall remain firm during the initial period that will end on September 30, 2020. If the contract is extended at the option of the County at any time, both parties will negotiate and agree to a new firm price based on current market conditions.

3.9 TERM OF CONTRACT

The initial term of this contract shall begin on the date of official award and end on September 30, 2020 with the option to extend for two (2) additional years. Extension for each additional term shall be offered at the sole discretion of the County upon written notice to the Contractor(s). The total contract term, including the initial term and all subsequent extensions, shall not extend past September 30, 2022, unless an emergency exists and/or special circumstances require a partial term extension.

Contractor Compliance Requirements

Introduction
The safety and health of all contractors, customers, and employees of the New Hanover County Department of Environmental Management is of primary importance. As a result, the prevention of occupationally induced injuries and illnesses will be given precedence over operating productivity whenever necessary.

Our goal is to maintain a safety and health program conforming to all applicable OSHA standards and to lead in safety program management within our industry. To be successful will require contractor cooperation in all safety and health matters.

As a contractor you will be required, as part of your contract, to take an active role in the Department of Environmental Management safety and health program. The following contractor safety and health requirements, when adhered to, will ensure safety for contractors, customers, and County employees. Additionally, potential damage to equipment and property will be avoided. It is impossible to document all possible situations or to provide precise guidance for every contingency a contractor may encounter in the course of their work. However, adherence to the rules as written and the desire to apply safe work practices will result in the highest level of safety.
General Requirements

1. All contractor employees shall abide by the Department of Environmental Management safety and health rules and regulations at all times. The DEM Safety Manual is available for copy or review in each of the Department’s offices.

2. The contractor and all contracted employees are required to follow the procedures for signing in and out. Procedures may differ depending on the section of the department the contractor is working in; they will be explained fully before the work begins.

3. The contractor shall have a competent individual in charge at the job site to supervise the job, conduct an adequate accident prevention program, and ensure compliance to OSHA and DEM rules.

4. All accidents or injuries shall be reported immediately to the DEM Project Manager or Safety Manager.

5. Contractor employees are not allowed to enter areas other than the work site, unless it is required for the performance of their job.

6. The contractor shall inform the Project Manager of any known hazardous conditions that exist, due to the contract work being done, in areas where Departmental employees may be exposed to the known hazards.

7. The contractor shall provide Material Safety Data Sheets for all containers of hazardous substances brought onto DEM property.

8. The contractor shall sign the “Contractor Hold Harmless” waiver form in order to use any Department equipment.

9. Periodic job site inspections will be conducted by the DEM Project Manager or Safety Manager to ensure that the job is proceeding safely in accordance with safety rules.

10. Violation of these rules is grounds for immediate termination of contract work.
Standards of Conduct

The Department of Environmental Management has established standards to ensure the smooth, safe, and efficient operations of the Department. Violation of these standards is considered serious and may lead to termination of the contract. The following are prohibited:

1. Willful damage to any Departmental property, customer property, or the property of Department employees.

2. Possession, use, or distribution of alcohol, narcotics, or illegal drugs on Department property.

3. Possession of firearms, ammunition, concealed weapons, or explosives (unless properly authorized).
