Questions Received:

1. Vacuum Unit-Bulldog QT1 Power unit 1HP
   This unit has been discontinued by the manufacture. The Bulldog QT2 has taken its place. The Manufacture also makes a model called the Badger that also will supply enough vacuum (4 users) and is a smaller size. Can I bid the badger? If the QT2 is the choice, it comes with a holding tank or without the holding tank (power unit only). Which do you want be bid?

   Please quote Bulldog QT2 with and without holding tank

2. The Dental Exam Chair, Delivery systems have options available at additional cost. I will be bidding these items of equipment with just the basic options. Let me know if this equipment is to have additional options other than the basic.

   This equipment is to be bid with the basic options.
