

ADDENDUM # 1

From: Lena Butler, Purchasing Supervisor
To: All Bidders
Project: RFQ-Engineering Services-Sneeden Drive Pipe Replacement
Date: September 29, 2020

This addendum is related to the County’s Request for Proposals “RFQ-Engineering Services-Sneeden Drive Pipe Replacement” and is hereby made a part of said Request for Bids to the same extent as though it were originally therein.

1. Is it the expectation that any natural resource technical reports required to obtain permits will be part of this scope of work?

USDA is providing the funding through this project through their EWP program. As a result, it is anticipated that the NEPA process will need to be followed.

2. Does the County have a survey of the project site that will be provided, or is it intended to be part of this scope of work?

The project site has not been surveyed. The selected consultant/consultant team will need to perform and provide the survey for the project.

3. Is a separate section required for references?

No, a separate section is not required. References can be included with any project examples provided within the submittal.

4. Is it intended for the “estimated time devoted to the project” (Submission Requirements, Section 6, 3rd bullet) be equal to the anticipated working hours/man-days?

Time is of the essence to complete this project. Please provide anticipated schedule and availability to perform and complete the work on the project.
